Those who would know what are the hest aspects of Southern life and society, may be referred with confidence to Moinsted's work on the Seaband Slave State.

"Mr. Ginsted's entire volume abounds with sech suggest's statements, and our American friends would do well to consider them closely."

"We example the setting setting the statement of the has a price himself, and he has succeeded, to produce in the minds his readers this conviction, that, after all, it is in the interest the masters that efforts for the abolition of Slavery must hade. This sensible view, so true and so suggestive, gives the value to the work of Mr. Omsted, and make it entired with value to the work of Mr. Omsted, and make it entire which value to the work of Mr. Omsted, and make it entire which value to the work of Mr. Omsted, and make it entire when you want to the work of Mr. Omsted, and make it entire when you want to be successful to the work of Mr. Omsted, and make it entire when you want to be successful to the work of Mr. Omsted, and make it entire was the successful the section of t

"It appears by the title-page of this book, that Mr. Climsted is the author of a work which was published some time ago, under the thire, "Walks and Talks of an American Farner in England." We have not seen that book. Those who have, may probably be prepared for the extraordinary merits of the work before us. The Americans are admirable writers of travelles, when their area of travel lies outside of the courtly simesphere of old European agitals. Nothing can be better in its way than Stephens. Central America, for Bayard Taylor's "Rie Voyage." The book of Mr. Climsted's proves that an American traveler and incidents in his own country, as Stephens and Bayard Taylor of fireign lands, while he gives us, he idea, information of a comprehensiveness, soundness, and depth which could be expected of no one but a native of the Usion. This book appears to us among the best of its kind that we have ever met with. In temper, in manners, in conscious, the work is a model for travelers, and, indeed, for everybody."

"It is a thoroughly lively and externating volume, with its applied pararties of travel, its incomparable negro conversations, and its descriptions of the most varied scenery. It would be say to review it at the same length as we have done, and leave an impression of its being a work of amusement and excitement. It is really so, though the cain good sense and icmper of the writer are its most prominent merit."

per of the writer are its most prominent ment. [London Daily News, July 21. "Mr. Olmsted is an intelligent man, moderate and condid in expressing his opinions, who sees, indeed, what is morally wrong, and what is politically weak in the institution of Stavery, but who, as to what he has seen, in not extravagant in statement, nor yet inconsiderate in criticism."

[London Examiner, July 26.

"It is a publication full of interesting matter, and is written with every accessings of importality."

"It is a publication full of inters sting matter, and is written with every appearance of impartiality."

London Saturday Review. Nov. 15.

"Addressing kinself to his duty, with just the desirable combination of qualifactions for it. Mr. Oinsteld has made of his hook of travels a standard competed of valuable information. To all those persons, therefore, who look upon the Slavery question as a problem requiring a practical solution, this book comes in as a stepping-time, which will lift that discussion to a range decidedly higher than it has ever held before."

"Mr. Oinsteld's book is the most thorough expose of the economical view of this subject which has ever appeared. His style is simple, natural and graphic; and he is so far from being carried way by his feelings, that one sometimes wonders at the calments with which he will relate the most ascending facts, it is ever hesitate to admit a merit, or give praise when it is due. The book is very thorough and accurate in its details, and is written in a style so lively, and with so much dramatic incident as to hold the attention like a work of faction. A friend of ours, a gentleman of high literary culture, confessed to having been begulded to sitting more than the first half of the night to

"The industry of the author has been great; his inquiries
minute and well-pointed; and he has brought away from his
field of research interesting traits and peculiar details, that domand a pen and a mind sit generis to catch and depict.,"
"We like exceedingly its honest story-teiling, its abrewd observations, its straightforward, economic theories, and its earneat tone of sympathy, as well for the master as the slave. As
a picture of Southern society, it is worth all the fections ever
written by feminine negrophilists, and will well repay a suidious perusal."
